PROFILE STATEMENT

Results-driven BI Analyst and Data Engineer with 4+ years of experience in turning complex data challenges into actionable insights. Driven by curiosity and a strong sense of ownership, I work seamlessly with cross-functional teams to transform business needs into scalable solutions.

EXPERIENCE

Associate Manager, Data Analytics & Engineering Mar YYYY – Present
Organization Name City, Country

- **Designed and launched an in-house Campaign Management Tool (CMT)** to fully automate customer reward calculation and distribution (cashback, bonus points, digital rewards, annual fee waivers). This is a significant shift from end-of-campaign manual processing to instant settlement upon eligible transactions.
- **Integrated Oracle Data Integrator (ODI)** to replace the legacy system, streamlining multi-source ingestion and improving data transition speed from source systems to the Data Warehouse by **at least 30%**.
- Developed and **deployed multiple enterprise-grade Power BI dashboards** with role-based security and automated refresh schedules, eliminating repetitive manual reporting and saving **at least 25%** in team work-hours.

Business Intelligence Analyst Dec YYYY – Mar YYYY
Organization Name City, Country

- Delivered interactive, drill-down **Tableau visualizations** that reduced reporting turnaround from hours to minutes.
- Partnered with cross-functional teams (marketing, ops, finance) to **define KPIs** and deliver scalable, self-service Tableau dashboards powered by BigQuery, enabling **real-time performance tracking** and decision-making.
- Conducted deep-dive analysis of high-volume order and campaign data to uncover actionable trends, optimize promotional spend, and improve targeting, resulting in a **15% uplift in campaign ROI** across key segments.

Senior Software Engineer Oct YYYY – Dec YYYY
Organization Name City, Country

- **Led end-to-end development** of *Example ERP* for large-scale warehouse, inventory, audit, and supply-chain operations across Indian fertilizer firms, managing cross-functional teams and aligning with client workflows.
- Designed **backend data workflows** and RESTful APIs to enable real-time inventory tracking, audit trail generation, and seamless integration with ERP modules, enhancing operational accuracy and system reliability.

Software Engineer May YYYY – Sep YYYY
Organization Name City, Country

- **Optimized ETL workflows** using MS SQL Server and SSIS, **reducing batch run time by 30%** and enhancing reliability of reconciliation and compliance reporting through robust data validation and error handling.
- **Built custom T-SQL stored procedures and tuned queries for faster access** to inventory, audit, and forecasting datasets; developed role-specific dashboards for reconciliation, compliance, and dispatch planning.

TECHNICAL SKILLS

- **BI and Visualization:** Tableau, Power BI, Google Data Studio
- **Data Engineering:** SQL (T-SQL, PL/SQL, BigQuery), ETL/ELT (ODI, SSIS, Airflow)
- **Analytics and Modeling:** Statistical Analysis, Predictive Modeling, Machine Learning
- **Collaboration and Leadership:** Stakeholder Engagement, Cross-Functional Teamwork, Agile Delivery
- **Domain Knowledge:** E-commerce, Banking, Supply Chain

EDUCATION

Example University City, Country
Master of Science in Computer Science, CGPA: X.XX 20XX

Example University City, Country
Bachelor of Science in Computer Science, CGPA: X.XX 20XX

AWARDS AND ACHIEVEMENTS

2nd Runners-up at Datathon 2.0 Aug 2022

- Competition to solve business problems using Big Data, Machine Learning, and Data Science tools and techniques.

Certification on Fundamental IT Engineer Examination Apr 2022

- A benchmark for assessing IT knowledge and competencies by Information-technology Promotion Agency (IPA), Japan.

2nd Runners-up at - Robo Carnival Jan 2019

- Project: Able - A complete learning solution for visually impaired people

ONLINE COURSES AND CERTIFICATION

- *Introduction to Apache Airflow in Python* – DataCamp – [Link](#) • *Google Data Analytics (8 Courses)* – Coursera – [Link](#)
- *Deep Learning Specialization (8 Courses)* – Coursera – [Link](#) • *Introduction to Git and Github by Google* – Coursera – [Link](#)
